

Hammond Residential Group is pleased to announce to financial institutions, in addition to full service property management we are positioned to act on your behalf as a receiver representing you in a non-judicial foreclosure.

On ready, on task, on time when you need it most.

Hammond Residential Group (HRG) is an Atlanta-based, full service property management company responsible for multiple conventional, institutional, transitional and fee-based assets throughout the Southeast.

When you need immediate response yesterday, our experienced management team and battle tested staff stands poised to move into action, for you.

The task of stabilizing a disputed, distressed or difficult asset requires attention to detail, fortitude and focus. Coordination has to happen in an abbreviated time frame that requires a company who has been in the trenches before.

Always with a close eye on market value, HRG can not only stabilize the asset through the vetting process, but also remain on the property to manage the asset back to profitability. You see, HRG is a fee-management company only, with no competing company-owned assets. Your projects are always our most important priority.
